COACH BRIEF

"Crée un rapport très visuel pour les milieux de terrain sur la semaine dernière. Le rapport ne doit contenir quasiment aucun texte, juste des visuels. Inclut un graphique Radar comparant l'intensité GPS de 3 joueurs spécifiques, et un Bar Chart pour leur charge ACWR. Ajoute un tableau récapitulatif avec un code couleur (heatmap) pour le sommeil."

MAUNA

Hambourg · Midfielders monitoring

MILIEUX DE TERRAIN – SEMAINE 22 SEPT. → 5 OCT.

Visual monitoring report for midfielders covering GPS intensity, ACWR load ratios, performance/injury-risk scores, wellness trends, and sleep quality over a 14-day window.

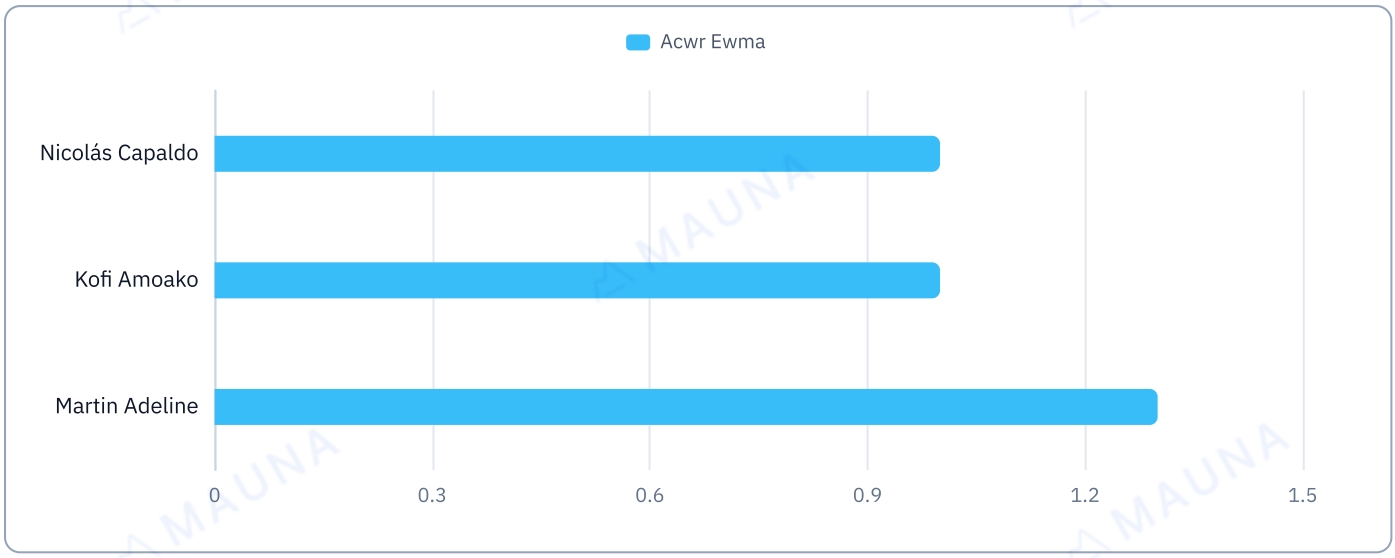

22 sept. 2026 → 5 oct. 2026
