MAUNA

2026-2027

READINESS BRIEF – WEEK 40

Club report — MAUNA data only

Mon, 05/10/26 · 2026-09-29 → 2026-10-05

01 Nicolai Remberg led total distance (50,863 m, 6 sessions) and Martin Adeline topped HSR (2,856 m, 5 sessions). Shafiq Nandja accumulated the highest 7-day sRPE load (97,061 AU) with moderate monotony (0.85). Martin Adeline shows elevated monotony (1.29) and strain (15,229) despite mid-range cumulative load—worth monitoring for variability.

02 Kofi Amoako reported the highest single-day soreness (50 on Oct 1). Bakery Jatta and Fábio Vieira both logged 40 on Oct 2. Wellness compliance: 21 players with ≥1 entry; most recent data from Oct 2 (no Oct 3–5 entries yet).

03 Nicolai Remberg combined top distance (50,863 m) with low soreness (10) and excellent mood (10)—optimal readiness. Martin Adeline (47,543 m, HSR leader 2,856 m) shows low soreness (16.3 avg) but elevated monotony (1.29). Miro Muheim (43,628 m, 961 m sprint) reports moderate soreness (20). No acute load spikes (ACWR data insufficient for 28-day chronic baseline).

04 Monotony 1.29 (7-day) with rising daily RPE (10→17→27→30) and a spike in HSR on Oct 4 (1,203 m, 19 sprints). Body soreness remained low (10–27, avg 16.3). Pattern suggests limited load variability—consider a recovery day or lower-intensity session before next match.
