03 · Subjective wellness — 2 weeks — §1

# STAFF READ

2026-09-24 → 2026-10-08

Subjective wellness data (body soreness, energy) for 12 players over the 2-week period. Mood, stress, and wellbeing ratings were not recorded.

## NARRATIVE THREAD

- 12 players logged wellness data over the period (45 entries total across 7 days).
- Body soreness averaged 6.1–7.0 across the week, with team mean stable around 6.5–7.0.
- Energy levels averaged 6.5–7.4, showing moderate consistency.

## SIGNALS

**WATCH** Reinildo Mandava: lowest energy (6.0) and lowest soreness (5.0) over 2 entries. Low energy may indicate fatigue or incomplete recovery despite low soreness.

Reinildo Mandava · wellness

**INFO** Alan Browne: lowest soreness (5.0) with moderate energy (7.0) over 2 entries. Positive recovery profile.

Alan Browne · wellness

**REVIEW** Limited wellness data coverage: only 12 players logged entries. Mood, stress, and wellbeing not recorded for any player.
