COACH BRIEF

Provide a training load report looking at Total Distance, Meaningful Distance, Z5 HSR, Z6 HSR & Explosive Distance. Report daily Acute chronic ratio using EWMA. Start this from 29th June 2026

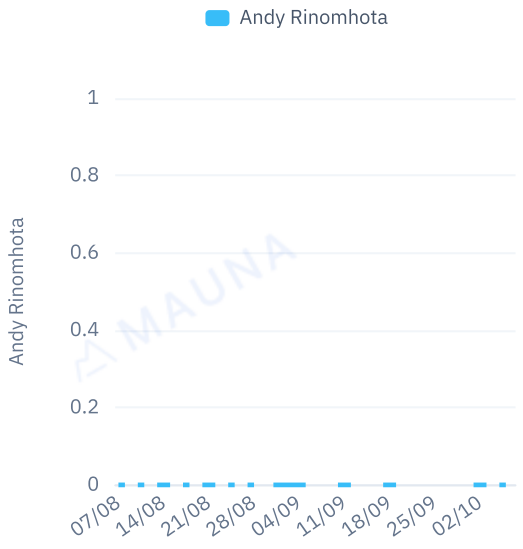

ACWR EWMA — DAILY EVOLUTION

29 June → 7 October 2026

Open-ended timeline: started 29 June 2026 with no defined end date; this report covers through 7 October 2026 (101 days). ACWR EWMA values are zero throughout the period — this reflects the calculation state for the window, not an absence of sRPE data collection.

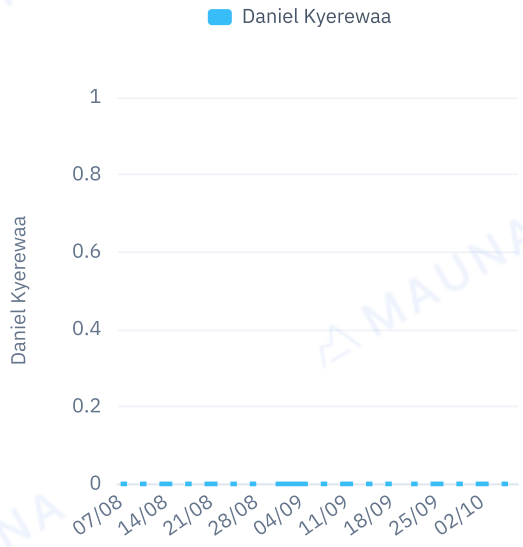

ACWR EWMA — GROUP 1

Andy Rinomhota — daily acute:chronic workload ratio

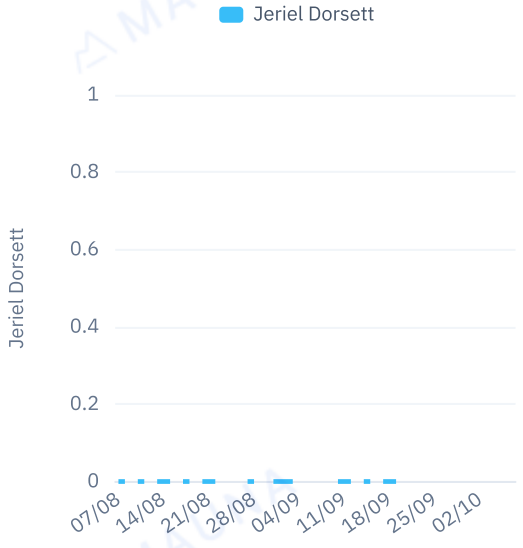

ACWR EWMA — GROUP 2

Daniel Kyerewaa — daily acute:chronic workload ratio

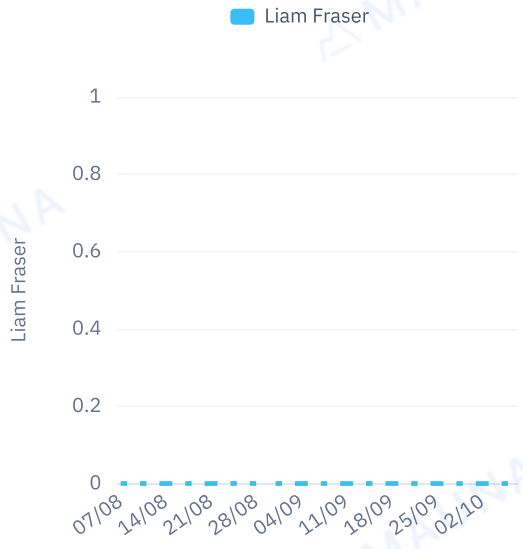

ACWR EWMA — GROUP 3

Jeriel Dorsett — daily acute:chronic workload ratio

ACWR EWMA — GROUP 4

Liam Fraser — daily acute:chronic workload ratio

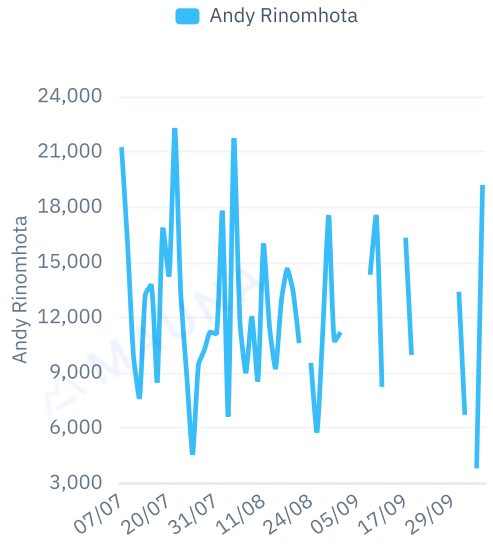

GPS INTENSITY — TOTAL DISTANCE

cumulative volume

Daily evolution charts (Group 1–4) show individual Total Distance trends across the 101-day window. Top 10 cumulative Total Distance ranking identifies the highest-volume athletes over the period.

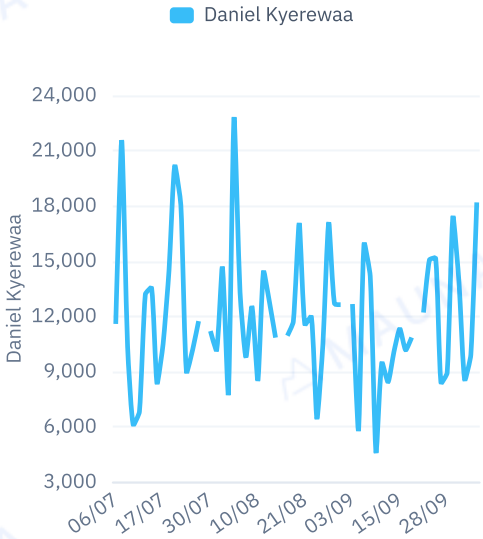

TOTAL DISTANCE — GROUP 1

Andy Rinomhota — daily GPS volume (metres)

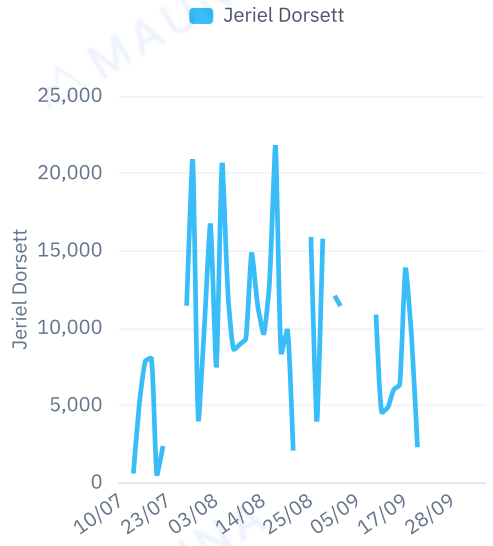

TOTAL DISTANCE — GROUP 2

Daniel Kyerewaa — daily GPS volume (metres)

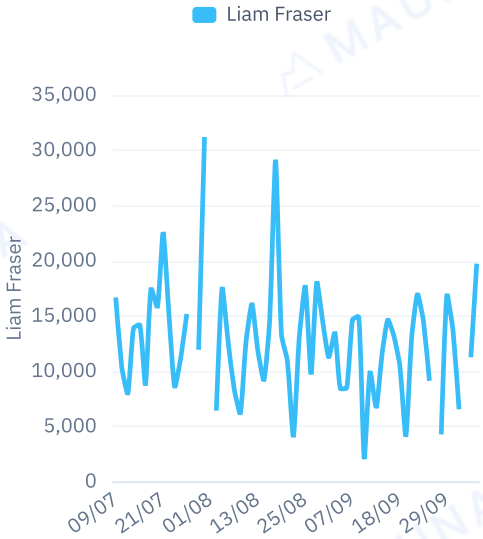

TOTAL DISTANCE — GROUP 3

Jeriel Dorsett — daily GPS volume (metres)

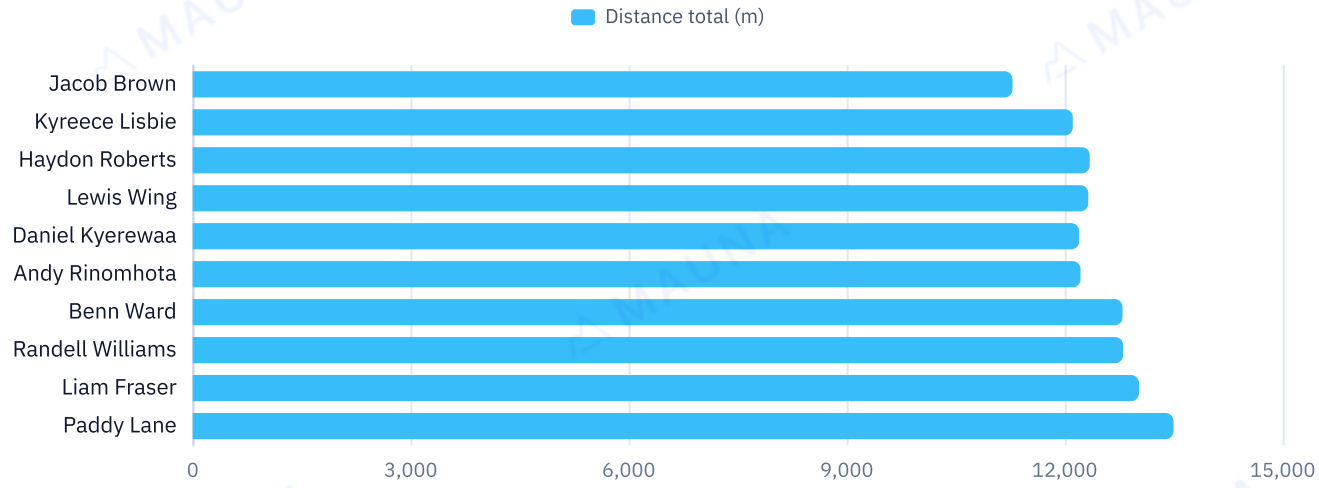

TOTAL DISTANCE — GROUP 4

Liam Fraser — daily GPS volume (metres)

TOP 10 — TOTAL DISTANCE (CUMULATIVE)

Highest-volume athletes over the period — cumulative metres

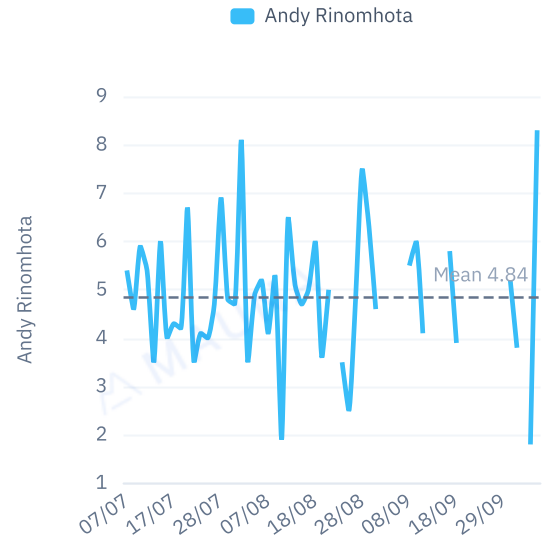

GPS INTENSITY — MEANINGFUL DISTANCE

average metabolic power

Daily evolution charts (Group 1–4) show individual Meaningful Distance (average metabolic power) trends. Top 10 period-mean ranking highlights athletes with the highest average metabolic power.

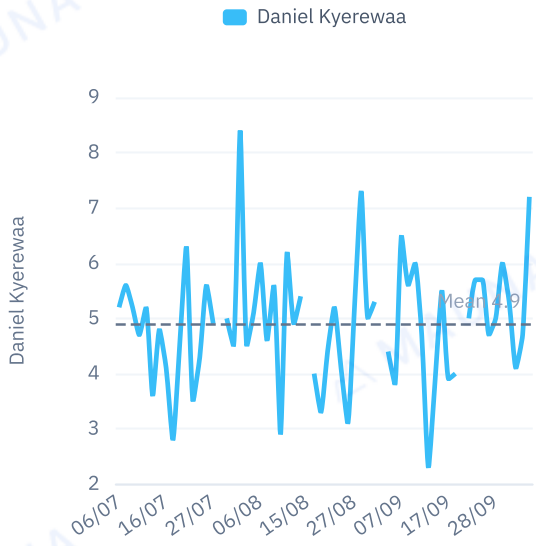

MEANINGFUL DISTANCE — GROUP 1

Andy Rinomhota — average metabolic power (W/kg)

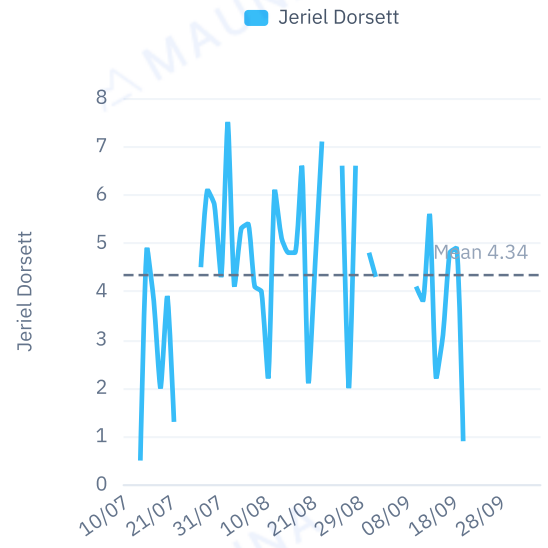

MEANINGFUL DISTANCE — GROUP 2

Daniel Kyerewaa — average metabolic power (W/kg)

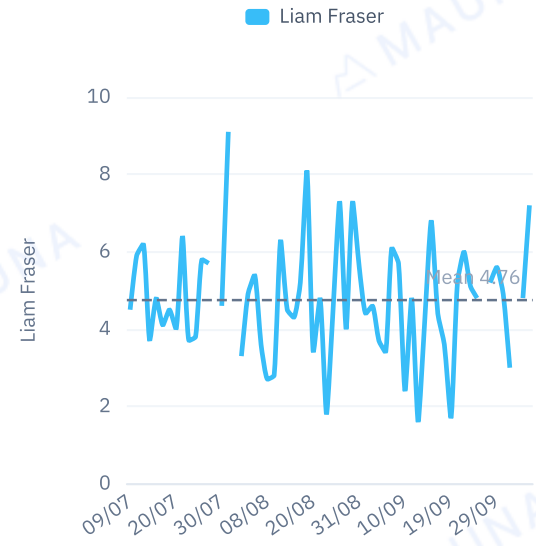

MEANINGFUL DISTANCE — GROUP 3

Jeriel Dorsett — average metabolic power (W/kg)

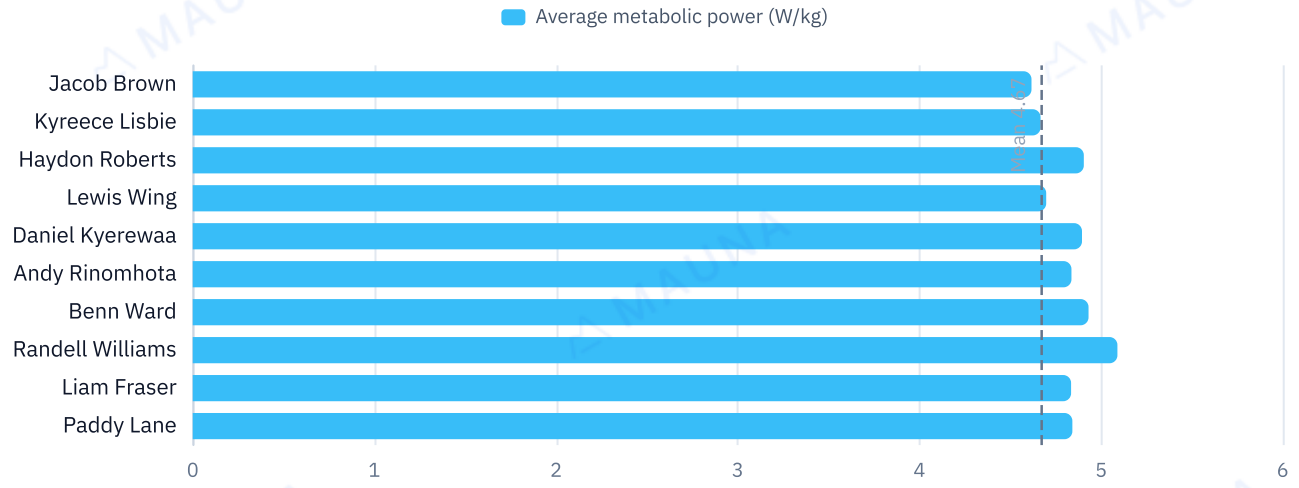

MEANINGFUL DISTANCE — GROUP 4

Liam Fraser — average metabolic power (W/kg)

TOP 10 — MEANINGFUL DISTANCE (PERIOD MEAN)

Highest average metabolic power — W/kg

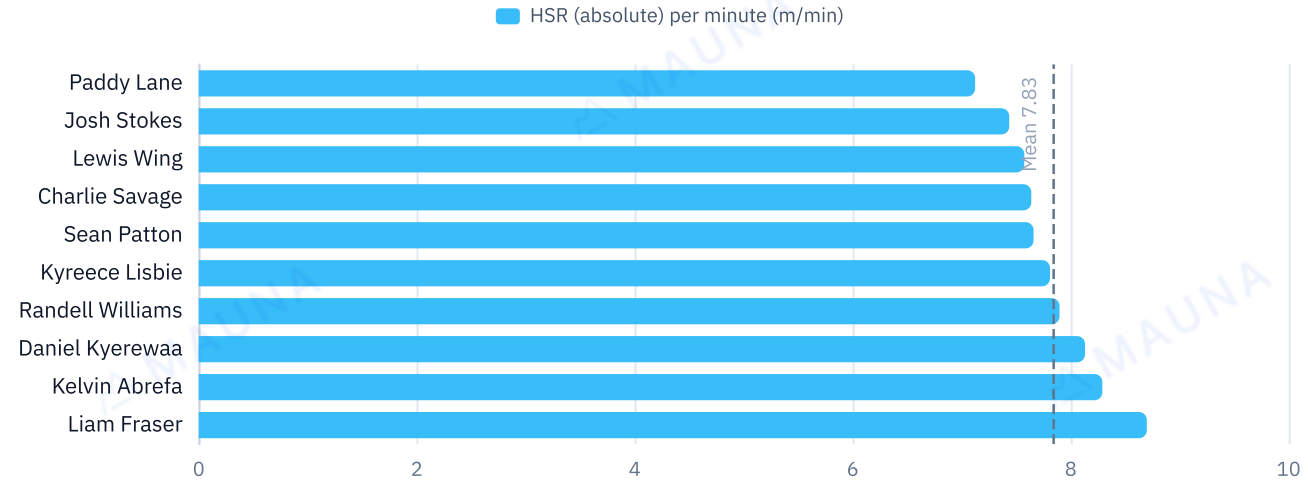

GPS INTENSITY — Z5 HSR

high-speed running

Top 10 period-mean Z5 HSR ranking identifies athletes with the highest high-speed running per minute. Daily evolution charts (Group 1–4) show individual Z5 HSR trends over the period.

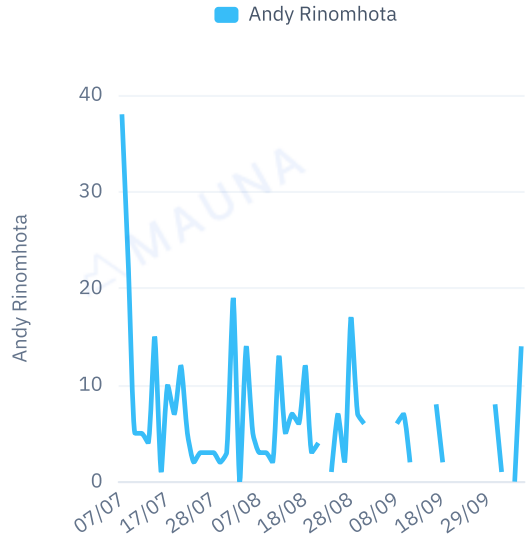

TOP 10 — Z5 HSR (PERIOD MEAN)

Highest high-speed running per minute — m/min

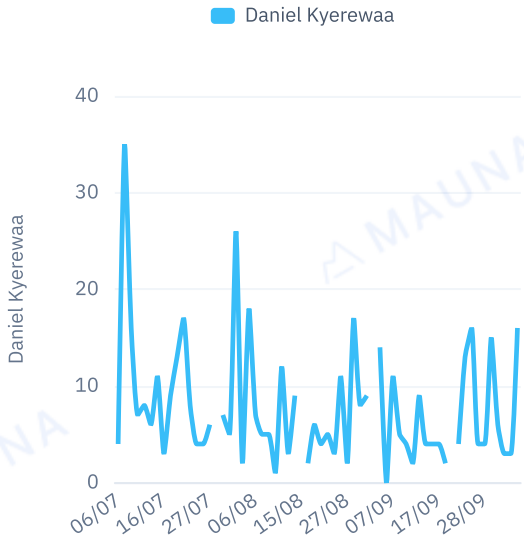

Z5 HSR — GROUP 1

Andy Rinomhota — high-speed running (m/min)

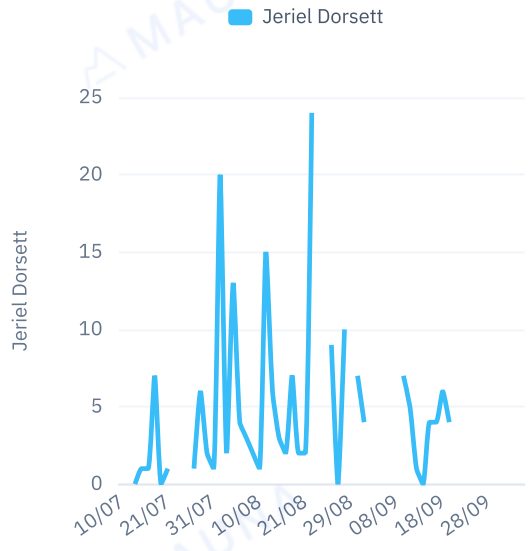

Z5 HSR — GROUP 2

Daniel Kyerewaa — high-speed running (m/min)

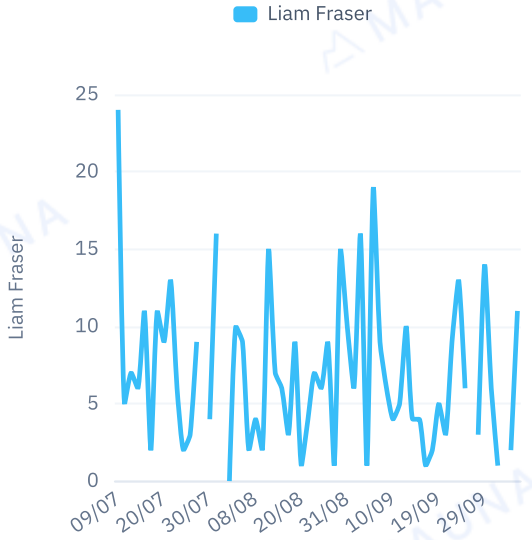

Z5 HSR — GROUP 3

Jeriel Dorsett — high-speed running (m/min)

Z5 HSR — GROUP 4

Liam Fraser — high-speed running (m/min)

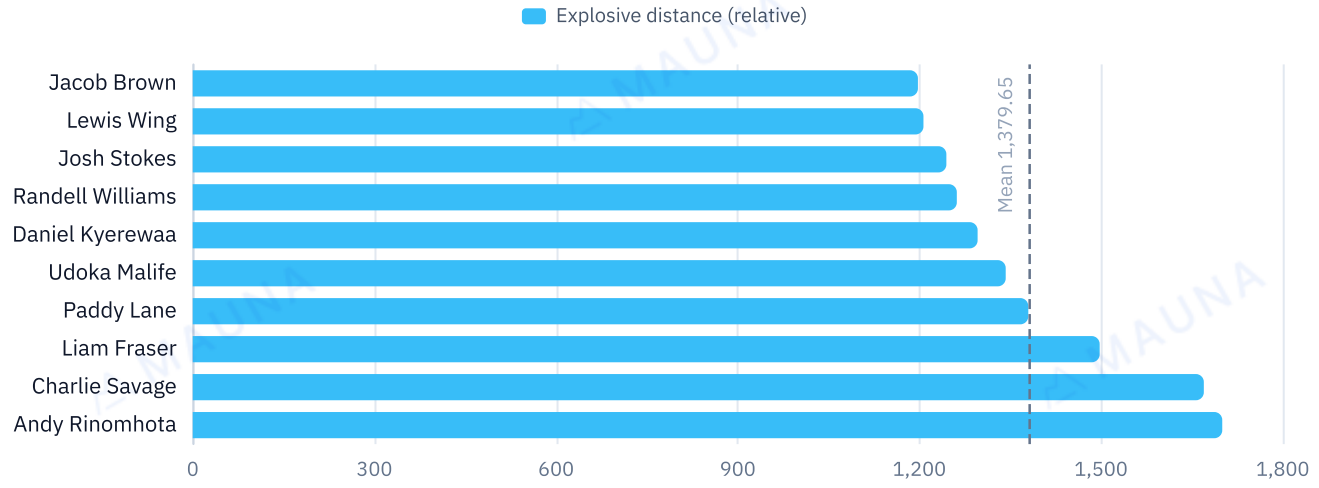

GPS INTENSITY — EXPLOSIVE DISTANCE

explosive efforts

Top 10 period-mean Explosive Distance ranking highlights athletes with the highest explosive efforts. Daily evolution charts (Group 1–4) show individual Explosive Distance trends across the window.

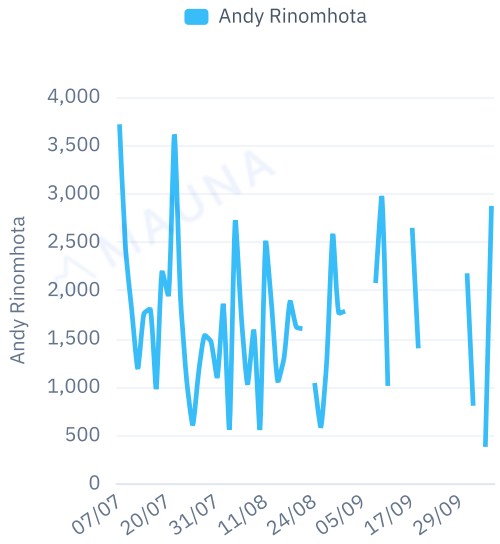

TOP 10 — EXPLOSIVE DISTANCE (PERIOD MEAN)

Highest explosive efforts — relative distance

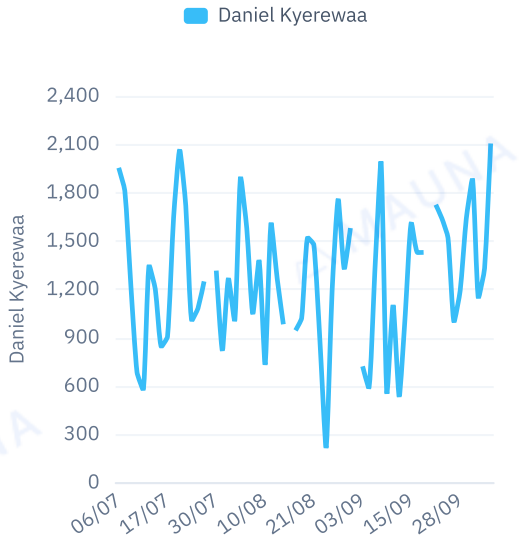

EXPLOSIVE DISTANCE — GROUP 1

Andy Rinomhota — explosive efforts (relative)

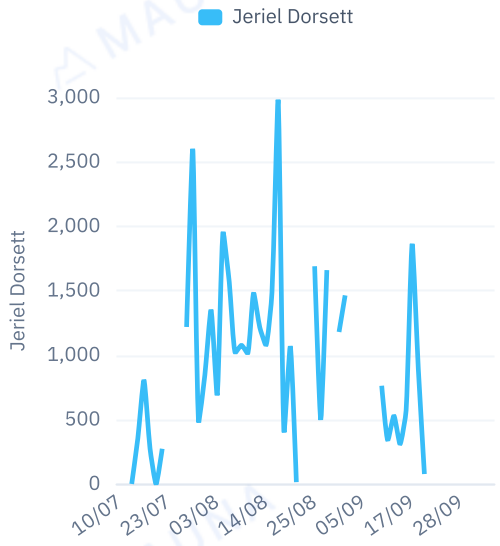

EXPLOSIVE DISTANCE — GROUP 2

Daniel Kyerewaa — explosive efforts (relative)

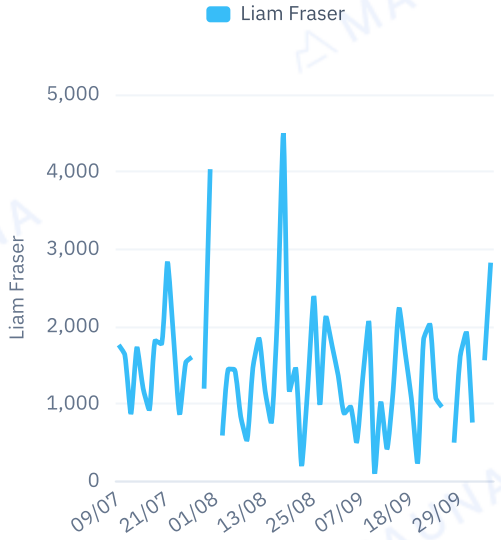

EXPLOSIVE DISTANCE — GROUP 3

Jeriel Dorsett — explosive efforts (relative)

EXPLOSIVE DISTANCE — GROUP 4

Liam Fraser — explosive efforts (relative)

LOAD × GPS CROSS-REFERENCE

period means

GPS Intensity Summary table provides period-mean values for Meaningful Distance, Z5 HSR, and Explosive Distance across all 24 athletes.
